## CHOOSE YOUR OPENING SLIDING DOOR THEMSELVES

1. **Mechanical opening by hand movement**
2. **Automatic opening with choice of control option**

### THE ORIGINAL INVISIBLE SLIDING DOOR SYSTEM

Invisible innovative sliding door with soft-closing that no longer needs any introduction, designed and produced by Segreto. A product that integrates new opening methods available on today in architectural minimalism. A solution that becomes unique among the best manufacturers of sliding systems from around the world.

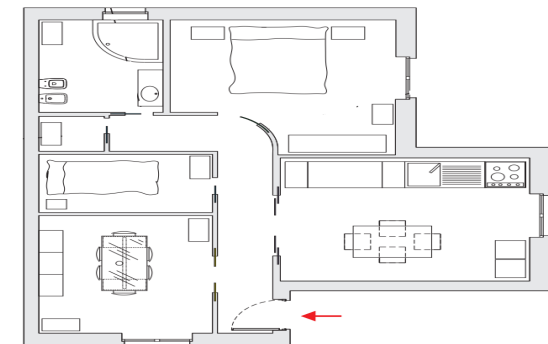

More than 50mm of damping motion system integrates new patented dampers with 50 mm of braking motion, while keeping the same door dimensions. Dampers with adjustable positioning. Dampers were designed to be independent from wall-spacer wheels. They're suitable to be moved into the track to allow door positioning adjustment.

Wall spacer wheels

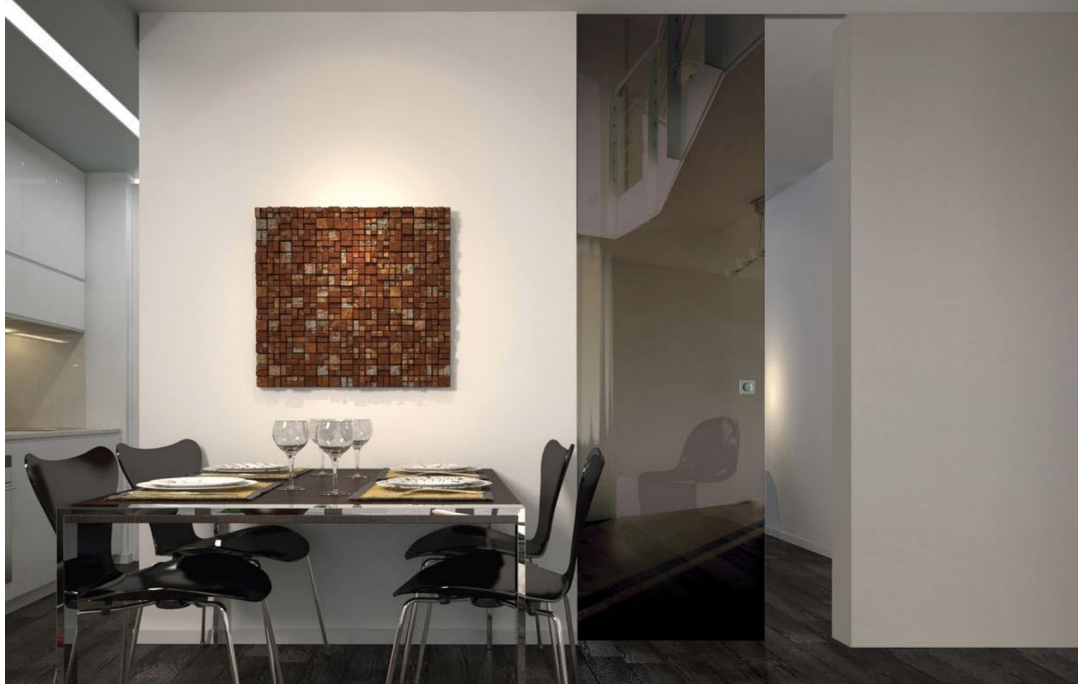

Wheels are positioned on the door extremities, in order to protect the door from wall contact, when wall surface are not plane.

Silent lower guide

With the purpose of further increasing sliding quality, the reinforced lower guide in Zamak (reliable and versatile) slides in a silent plastic profile
